

Dear Fellow Community Member,

It is a privilege for me to recommend Lori Driggs and IF NOT FOR GRACE. There is an incredible need for this healing ministry that sets free those who are in bondage from the guilt and shame of a past abortion experience.

As the director of three crisis pregnancy centers, I am keenly aware of the devastating aftermath abortion causes. Women who experience an abortion can suffer from serious emotional, physical and spiritual consequences until they are able to find forgiveness and healing through an honest relationship with the Lord - their creator and healer. Fathers of aborted babies, brothers, sisters and grandparents are affected as well, and are often in need of as much assistance as the mother of the aborted baby.

There have been an estimated 44 million abortions in the United States since abortion became legal in 1973. Our country has an abundance of wounded individuals who need the healing that is offered through IF NOT FOR GRACE. This ministry has the potential to improve the mental health of so many and restore them for the destiny they were created to fulfill.

With deep respect,  
Kathy Edwards  
Executive Director  
Rachel House Pregnancy Resource Centers, Inc.
