

Myrna Vaughan, MA

As a **Licensed Professional Counselor**, I have seen so much of the pain that women experience after they have had an abortion. The guilt and depression, among many other symptoms, is almost more than they can handle. I am glad that the ministry of "If Not for Grace" is in our community to help women cope with their loss. After the opportunity I had to meet with Lori and see the materials that she uses, I know that she and her staff has a special heart for these women. They are being used mightily to make a difference in their lives. Thanks Lori for what you are doing.
